## **DETAILED ACTION**

# Response to Amendment

The Amendment filed on Jul. 6, 2007 has been entered. Claims 14, 15 and 17-19 remain pending in the current application.

#### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The title of the application has been amended as follows: Liquid crystal display comprising an electrostatic protection element formed between adjacent bus lines.

# Allowable Subject Matter

Claims 14, 15 and 17-19 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 14 and 15 (Amended): None of the prior arts either alone or in combination fairly teach or suggest that a resistive component of  $7k\Omega$  to  $8k\Omega$  is formed between the metal layers and the connecting layer. Therefore, claims 14 and 15 are deemed non-obvious and inventive over the prior arts and are allowed.

Application/Control Number: 10/602,848

Art Unit: 2871

As to claims 18 and 19: since claims 18 and 19 depend on the allowed claim 14, therefore, are also allowed.

Regarding claim 17: None of the prior arts either alone or in combination fairly teach or suggest that the contact resistance through the contact hole on a multi-layer structured metal layer is equal to  $35k\Omega$  to  $36k\Omega$ .

Therefore, claim 17 is deemed non-obvious and inventive over the prior arts, thus is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
